

The image shows a 10x10 Killer Sudoku grid. The grid is divided into 10 columns and 10 rows. The clues are as follows:

- Row 1: Clue 16 in column 1, Clue 4 in column 7.
- Row 2: Clue 12 in column 1, Clue 13 in column 7.
- Row 3: Clue 16 in column 1, Clue 24 in column 5.
- Row 4: Clue 22 in column 1.
- Row 5: Clue 13 in column 9.
- Row 6: Clue 18 in column 1.
- Row 7: Clue 14 in column 4, Clue 4 in column 9.
- Row 8: Clue 9 in column 7.

The grid contains various symbols: equals signs (=), less-than signs (<), greater-than signs (>), and triangles (^, v). Some symbols are placed on the grid lines, while others are placed within the cells. The grid is partially filled with these symbols and numbers, indicating the start of a puzzle.
