

The puzzle is a 10x10 grid with a thick horizontal line between rows 5 and 6, and a thick vertical line between columns 5 and 6. The grid is divided into four 5x5 quadrants. Numbers are placed in the top-left corners of various regions: 12, 14, 15, 18 in the top row; 19, 7, 9 in the second row; 16, 6 in the fourth row; 10, 10 in the sixth row. Symbols include triangles (up, down, left, right), equals signs, and vertical bars. Some symbols are placed on the grid lines, while others are inside the cells. The puzzle is a 'GT Killer' type, where numbers and symbols represent constraints on the grid's contents.
