

The image shows a 9x9 Killer Sudoku grid. The grid is divided into 81 cells by solid lines. A 3x3 grid of 9 larger cells is formed by thicker solid lines. Each of these larger cells contains a number representing the sum of the digits in that 3x3 area. The numbers are: 8 (top-left), 19 (top-middle), 16 (top-right), 10 (middle-left), 10 (middle-middle), 10 (middle-right), 17 (bottom-left), 9 (bottom-middle), and 18 (bottom-right). Symbols are placed in various cells: equals signs (=) in (1,2), (2,1), and (2,9); greater-than signs (>) in (2,5), (3,3), (4,1), (5,4), (6,2), and (7,5); less-than signs (<) in (2,6), (3,4), (3,5), (5,6), (6,5), and (8,4); and caret symbols (^) in (3,4), (4,7), (5,8), and (7,1). The grid also features dashed lines forming a 3x3 grid of 9 larger cells, which are the 3x3 areas for the Killer Sudoku sums.
