

The grid is a 10x10 grid with thick lines forming 3x3 sub-grids. The sub-grids are defined by thick lines at rows 3, 6, and 9, and columns 3, 6, and 9. The numbers in the corners of the sub-grids are: (1,1)=14, (1,3)=19, (1,5)=13, (1,7)=12, (1,9)=15; (3,3)=8, (3,5)=17; (5,3)=18, (5,7)=9, (5,9)=16; (7,1)=15, (7,3)=10, (7,7)=9; (9,3)=10, (9,9)=12. Clues are placed in the following cells: (2,3) contains a right-pointing arrow; (2,9) contains a downward-pointing arrow; (3,2) contains a downward-pointing arrow; (3,4) contains a right-pointing arrow; (4,9) contains an upward-pointing arrow; (5,3) contains two vertical bars; (5,9) contains an upward-pointing arrow; (6,2) contains the number 3; (6,5) contains an upward-pointing arrow; (7,5) contains an equals sign; (7,7) contains a downward-pointing arrow; (8,4) contains a left-pointing arrow; (8,5) contains an upward-pointing arrow; (8,7) contains a right-pointing arrow; (9,3) contains a right-pointing arrow; (9,7) contains an equals sign.
