

The image shows a 10x10 Killer Sudoku grid. The grid is divided into 10 columns and 10 rows. Thick black lines separate the grid into four 5x5 quadrants. Dashed lines indicate the boundaries of the killer cages. Numbers are placed in some cells to indicate the sum of the numbers in the cage. Symbols are placed in some cells to indicate the type of numbers allowed in the cage: '>' for greater than, '<' for less than, '=' for equal to, '^' for even, and 'v' for odd. The clues are as follows:
